

K4EBMP10TT

TOP ELECTRIC BAIN-MARIE 2x(1/1 + 1/3) GN

PRODUCT DESCRIPTION

Stainless steel frame. Athermic thermoset plastic knobs with useful screen printed edges.

Heating achieved through **ETCHED FOIL heating elements**: heat is transferred only to the tank bottom for energy savings. Manually-reactivated safety thermostat. Operation through ON-OFF switch and a 30°C-90°C thermostat with probe immersed in the tank.

AISI 304 moulded 2 mm-thick work top with rounded corners for easy cleaning. Stainless steel front, side and backside panels.

Cold moulded AISI 304 tank with drain hole, suitable for containers **up to 150 mm high**. Possibility to hold multiple containers **up to 2 x (1/1 + 1/3) GN**.

Water filling tap on the front panel. AISI 304 elliptical cross-section designed handles. Tank drain on the front panel and operated by a lever.

Laser-cut work top finishing for "head-to-head" matching and binding fastening.

Accessories available **on demand**.
