

K7ECU15TTQ

TOP ELECTRIC RANGE 6 SQUARE PLATES

PRODUCT DESCRIPTION

Stainless steel frame. Athermic thermoset plastic knobs with useful screen printed edges.

Heating obtained through **cast iron square electric plates**. Heating elements fixed on the plate bottom, embedded in a layer of insulating material. Each hotplate is provided with a selector, which enables the variation of the heat output **from maximum to minimum in seven positions**. Safety ensured by a temperature limit-switch situated inside the hotplate.

AISI 304 moulded work surface presenting a reverse drawing for perfect lodging the electric plates, easy cleaning and avoiding liquid damaging electric parts. Stainless steel AISI 304 front panel.

Laser-cut work top finishing for "head-to-head" matching and binding fastening.

Accessories available **on demand**.

TECHNICAL SPECIFICATIONS

Width: 1200 mm

Depth: 700 mm

Height: 250 mm

Weight: 80 kg

Volume: 0.54 m³

Electrical power: 15.60 kW
