GAS RANGE 6 BURNERS WITH PILOT FLAME + ELECTRIC VENTILATED OVEN 1/1
GN - SOLUTION LINE

PRODUCT DESCRIPTION

Stainless steel frame. Double-skinned moulded oven door and heavy-duty handle. Athermic thermoset plastic knobs. Heating by means of **cast-iron, sealed, stabilised flame and superimposed double crown burners with different power ratings (max. 6.5 kW and 8.2 kW)**.

Each burner provided with a **safety gas cock**, which enables the output to be regulated from maximum to minimum. Safety ensured by a thermocouple kept active by the pilot burner flame.

Surface grids made of alkali, acid and fire resistant matt RAAF enamelled cast iron.

Surface grids placed on moulded surfaces with rounded edges and water-tight burners for easy cleaning.

Electric ventilated oven 1/1 GN. Oven stainless steel removable grill. Oven floor made of made of a thick steel sheet strengthened by a series of ribs.

Insulation of the cooking chamber and of the oven door ensured by a layer of high temperature resistant ceramic fibre.

Heating obtained by special stainless steel heating elements resistant to high temperatures, placed under the bottom and on the top of the cooking chamber. Air movement guaranteed by a stainless steel fan driven by a powerful electric motor.

Possibility to select different types of heating both static and ventilated, both heating from below and grill type, or complete heating.

Equipped with a thermostat that adjusts the temperature **between 90°C and 300°C**. Safety thermostat with manual reset against overheating.

Laser-cut work top finishing for "head-to-head" matching and binding fastening.

Height-adjustable stainless steel legs.

Tested with natural gas or LPG, according to the user's needs.

Accessories available **on demand**.

TECHNICAL SPECIFICATIONS

Width: 1200 mm
Depth: 700 mm
Height: 850 mm
Weight: 132 kg
Volume: 1.15 m³
Electrical power: 3.65 kW
Gas power: 44.10 kW
